

EVMC 12 Car Rally 24th March 2022

Final Instructions

Thank you for entering the third round of the EVMC 12 Car Series. This event is a little different as we are using the new RallyAppLive system. This is a smart phone app available free to download on the regular app stores. Please make sure you have downloaded this at home and it's the latest version before you set off to the start of the event.

The start of the event is the Layby just off the A6 2miles north of Kendal SD 531.5 972.5

The finish of the event is The Eagle and Child, Staveley SD 472 980

Timetable on the 24th March

| | |
|--------------------|-------|
| HQ Desk opens | 19:00 |
| First car starts | 20:01 |
| First car finishes | 21:59 |

Plotting

Only one map is required, OS Landranger 97 March 2017 edition.

All crews will receive their route 30 minutes before their start time.

Control Types

The event will only feature three types of control. Main Time Controls are at the start and the end of the event. Time Controls, which are all timed to the minute. Lastly, Route Checks which have been setup to be fully automatically recorded for you. None of these controls will have a board or a marshal, the onus is on the competitors to stop in the time control zone and select their own time before continuing along the route. No code boards will be used either.

RallyAppLive

Tips before starting.

- Mount the phone in a cradle or Velcro it to the dash or a map board in the car and make sure it is within reach of the navigator.
- Ensure GPS is on and set to the highest accuracy if you have a choice.
- Have the phone on charge throughout the event, as the app drains the battery very quickly.
- Make sure the phone is not on mute and the volume is turned up to the max.

The video below is the best way of demonstrating the app and how to use it. Please ignore the mention of registering your phone at the start of the video, TW will do this on your behalf.

After the event has concluded please make sure you download your event data so the results can be processed.

Marshals

There will be marshals at MTC1, then at MTC2, if you need help through the course of the event, you can call Tom Wilcox 07968342425.

Miscellaneous

Timecards. The only purpose of the timecard on this event is to allow crews to calculate their due time at controls and keep a record of times if they wish. It is the Navigators responsibility to keep to the correct schedule.

Tyres. The whole route is tarmac but a gravel tyre with a strong sidewall is recommended for the more serious crews. Considering the number of potholes on the route.

Driving standards. Please remember this is a 12 Car, not a Inter Club Road rally. Please drive in a manner which will not bring unnecessary attention to the event. DSO will be out at sensitive areas on the route.

Signing on

Please make sure you have signed on for the event, via the [Registration \(sapphire-solutions.co.uk\)](http://Registration(sapphire-solutions.co.uk)) website. You will not be allowed to start the event if this has not been completed. The same thing applies to payment of the entry fee.

Mobile phone registration

By return email please let the clerk of the course know the mobile phone number of the phone you intend to use on the event.
